Indicate Undergraduate Year Completing in Spring 2018: \_\_\_\_\_ 3<sup>rd</sup> \_\_\_\_\_ 4<sup>th</sup>

If accepted can you assure us of your full-time attendance in this program (barring illness/emergency)? For example, there are no job or course conflicts and you are dedicated to attend 100% of the program. Please be honest.

\_\_\_\_\_ Yes \_\_\_\_\_ No \_\_\_\_\_ Unsure

**A Brief Description of Yourself** (Please provide a brief description about yourself including any special academic achievements/awards, published work, or research projects).

**Short Essay Questions**

Please complete the questions in the spaces provided below.

**Part A. Describe why you are interested in Lab Bootcamp and what you anticipate to gain from this program.**

**Part B. What are your future goals and how do you plan on achieving them?**

**Part C. Describe a current research problem in life sciences and outline how you would go about solving it.**

**Part D. List any laboratory experiences you have had (including courses). POINT FORM**

**Part E. List your laboratory skills and techniques you already know how to perform WELL (not something you experienced in one lab in one course – but a skill you are already confident in). POINT FORM**

**Do you have a research position (student/tech/research assistant) scheduled for the summer or fall of 2018?**

\_\_\_\_\_yes \_\_\_\_\_no

**If yes, please state the lab you will be working in and what role you will have.**

**Please sign below to confirm that all above information is accurate and that, if accepted, you will complete the online biosafety training course EHS601 PRIOR to lab bootcamp (2-3 hrs).**
